Village of Frankfort

Press Release

FCTV Channel 6 in Frankfort Widens Audience with AT & T Broadcasts

The Village of Frankfort is pleased to announce that effective July 27, 2009, AT & T launched their “U-verse” programming to our Frankfort channel 6 viewing audience. Comcast customers are not affected in any way by this additional service, and will continue to enjoy Frankfort’s channel 6.

The addition of “U-verse” widens the FCTV-6 broadcast of Frankfort events, the Village Board meetings, school programs and original informational shows. In addition, viewers from other suburbs in Illinois can view Frankfort’s channel 6 and vice versa.

As an AT & T customer, the process to access FCTV channel 6 through AT & T’s “U-verse” is easy.

- Using the remote control, select “Program” via the “Guide” button
- Press “OK” to select Channel 99
- After Channel 99 is selected, the application launch screen should appear. It should say “Press OK to start Local Government Education and Publ...” at the bottom of the screen
- Press “OK” to start the PEG application—“Loading Application” screen will appear
- City Selection Menu Appears listing all the cities in Illinois that have launched PEG on “U-verse”
- Select “Frankfort Community Television (FCTV)” launching you into the city viewport

Frankfort’s AT & T customers can now stay tuned to everything happening in Frankfort. In addition, viewers from other suburbs in Illinois can view Frankfort’s channel 6 and vice versa.

“We are pleased that our channel 6 broadcasts, including our Village Board meetings, are now available for AT & T customers to view”, commented Mayor Jim Holland.

A complete program guide is available at www.villageoffrankfort.com under “Most Requested”.

For Immediate Release – July 27, 2009
